## HUNTING AREA Selous

Selous Game Reserve covers some 54,000 km<sup>2</sup> our partner has concessions, MS1, RU1, U4 and LL3, enormous hunting districts that cover a total of up to 1,300 km<sup>2</sup> in the eastern part of Selous.

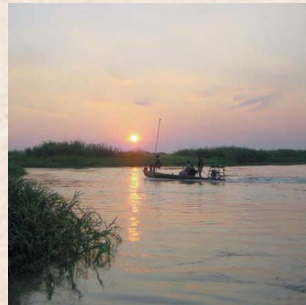

Selous consists of enormous grass covered plains, bush and areas of forest together with rivers and partial led dried up river beds, as well as miombo forests in the northern more hilly part of the district. This varied biotope, where it is always possible to find water, is home to a rich fauna. The hunting season in Tanzania is from 1st July to 31st December, but the best period in these districts is from July to the start of December

**MS1** is the largest concession with an area of 1,300 km<sup>2</sup>. There are 3 large river valleys formed by the rivers Namatete, Kitope and Umswega, and this ensures you will find a rich habitat with large and varied game populations. It is here that over the years it is here that the best lions and biggest buffalos have been bagged. The lions here have a characteristic dark mane. The average trophy size for buffalo is 40", while the biggest bulls shot here

have measured an impressive 50". There are also good elephants, sable, kudu and eland. The best period here is from September to December.

**U4** is the smallest concession at 800 km<sup>2</sup>, however it is the most picturesque. Most of this concession is located along the Rufiji river. This district produces the biggest leopards, good lions, and many buffalo (averaging 38" – 40"), abundant hippos and large crocodiles, as well as waterbuck, greater kudu, eland, bushbuck, and other antelope species. You can hunt here for July to December, and there is also good fishing for tigerfish, giant catfish and golden catfish.

**LR1** is the most central concession and covers some 1,200 km<sup>2</sup>. The majority of this district is covered by miombo forest and there are a number of smaller rivers, that usually dry out during certain times of the year. Some very good elephants

have been taken here, and you can also find good populations of sable, eland, leopard, zebra, wildebeest, Lichstenstein's hartebeest, impala, warthog, red & common duiker and suni. It is best to hunt here from mid-July to December.

**LR2** covers 1,145 km<sup>2</sup>. It is a very diverse district with miombo woodland, areas of scattered thorn bushes and belts of dense vegetation. A large river, the Kimburu, also runs through this district gennem området, although it dries up for much of the year. As far as the hunting is concerned, LR2 is most renowned for "never knowing what is hidden around the next corner". There are good populations of all game species that occur in the area, and hunting is good from July to December.

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world’s largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are “regulars” you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by “agents” of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking “cheap” packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer’s individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
