HIGHLIGHTS & DESCRIPTION

Moose Hunting in Newfoundland

Overview

Hunting on Newfoundland

Moose hunting on Newfoundland begins in early September and continues to the end of November. To make the most of the short hunting season the outfitter operates 7 remote hunting lodges and a number of spike-and-tented camps. For this reason it is possible to enjoy successful hunts throughout the season.

This hunting tour stretches over 7 days, and includes 6 days hunting, from Monday to Saturday (Hunting is not allowed on Sundays here on Newfoundland). If possible it is best if hunters arrive on a Sunday, when they will be met at the airport by our outfitter, who will then bring them to a nearby hotel. The following morning you will continue on to the hunting camp where you will be based by helicopter or float plane. After breakfast/lunch you will begin the hunt.

Typically you will see moose every day during the hunt (depending on the weather conditions) and a diligent hunter should find it possible to shoot a handsome bull with in a couple of days.

All hunting is carried out with 2:1 guiding, which is to say there will be one guide with 2 hunters. If you prefer to hunt with your own individual guide it is possible to arrange 1:1 guiding on payment of a supplement. The outfitters fine reputation and the game-rich hunting districts they offer has attracted some of the best hunting guides and staff to work with them - some with over 30 years of experience.

HIGHLIGHTS

- Large population of Canadian moose
- Representative trophies (40-55 inches)
- Helicopter or float plane transport out to the hunting district
- Knowledgeable guides with up to 30 years experience
- Very low hunting pressure
- 97% success rate since 2009

After flying to the town of Deer Lake on Newfoundland, via Toronto, our outfitter advises all hunters to stay in a hotel in Deer Lake both before and after the hunt. This not only enables you to rest after the long flight, but it helps ensure you will be back in Deer Lake in good time for your flight home.

There is also the opportunity to combine the hunt with black bear or the rare Woodland Caribou. Newfoundland is currently the only place in the world where non-local hunters have the opportunity to hunt these impressive animals. Woodland Caribou is the rarest and most majestic of the Caribou species, and with their large white manes and enormous cinnamon-colored antlers with many points, they make an excellent trophy. The best time to hunt them is during the rut in October, where they gather in larger herds, and these herds will usually contain several large trophy bulls.

HUNT PROGRAM:

Day 1: Arrival at Deer Lake and overnight in a hotel near the airport.

Day 2: Pick-up from the hotel and transfer to the hunting camp by helicopter or float plane - settle into the camp, breakfast/lunch, then start the hunt.

Days 3-8: Hunting.

Day 9: Depart from the hunting camp in the morning and fly by helicopter/float plane back to Deer Lake. Here trophies, skins will be taken to a taxidermist so they can be treated before being sent home. Overnight accommodation in a hotel before beginning your journey home the next day.

Day 10: Departure for home

The numbers of places available are limited, and as there are many repeat bookings every year, these can sell out

quickly. We therefore recommend you book your hunt well in advance.

ACCOMMODATION Hunting Camp on Newfoundland

Hunters must arrange flights to Deer Lake on Newfoundland, where they will spend their first night here in a hotel. On the following day you will be taken to the hunting district and the actual hunting camp.

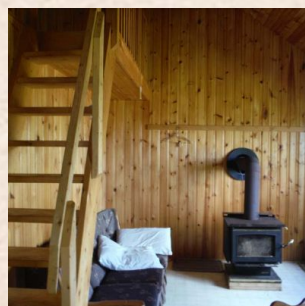

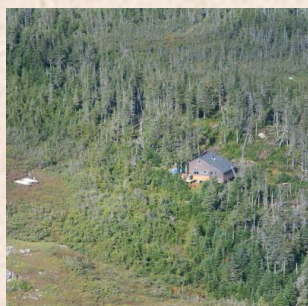

The camps in the hunting district are ideally situated in first class hunting districts for moose, black bear and reindeer in south west Newfoundland. Moose, black bear, and reindeer can all be hunted on foot from camp, and our outfitter enjoys exclusive hunting-rights within a wide radius around his camps.

After a two hour drive in some of the most beautiful scenery on Newfoundland, you can spend a whole week without seeing another living soul the people you are sharing the camp with.

To minimise hunting pressure on the district throughout the season, the outfitter operate 7 remote hunting lodges and a number of spike- and tented camps. The cabins are built from robust timber, that radiate a true wilderness atmosphere in camp.

All meals are prepared by the experienced camp cook. Desserts,

snacks and beverages are also all served in camp.

PARTNER IB Outfitters

IB Outfitters is owned and managed by outfitter Mark Pike, who has worked in the hunting business for most of his life. Mark has plenty of experience of hunting on Newfoundland as he is a native of Deer Lake, the town where visiting hunters fly to when coming to the western part of Newfoundland.

During the autumn, hunting here mostly revolves around "Eastern Canadian Moose", while in the spring and in the early autumn it is also possible to hunt black bear. There is also a really good population of the unusual "Woodland Caribou", hunting for which can also be arranged. Newfoundland also offers some fantastic fishing.

HUNTING AREA Newfoundland

The Alaska of the Eastern Seaboard

Newfoundland has one of the most dense populations of moose in the world and our outfitter here can offer exceptionally good hunting districts. Some really excellent trophies can be taken here, as the district operates a very selective shooting policy.

In addition to moose the area also can offer very good populations of both black bear and the rare "woodland caribou".

There is no competition from local hunters in these districts, which can often be encountered in other areas of Canada, as they are only accessible by helicopter. The local hunters actually call the area "the Alaska of the Eastern Seaboard"

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
