## HIGHLIGHTS & DESCRIPTION

# Moose hunt in British Columbia

### Overview

The area is best known for its strong population of Canadian moose and trophy size typically ranges from 52 - 60 inches, but moose over 60 inches are taken down each year. The area also offers one of British Columbia's largest populations of Mountain Caribou and good populations of Stone Sheep, Mountain Goat, Grizzly, wolf and wolverine. It is recommended to be in reasonably good physical shape, as it can be expected to spend much of the time in the wilderness on foot or on horseback.

The area is a fine combination of beautiful nature and unrivaled hunting opportunities in a region with high game populations and good success rates. The large hunting area consists of countless valleys, mountains, high plateaus, forests as well as lakes, rivers and waterfalls. The hunting area will feel like it is totally untouched.

### Horseback hunt

On a horseback hunt you use the horses to get up on some of the mountains in the area where you can spot the game at great distances and you can also cover relatively large areas with the help of the horses. If desired you can also add a mountain caribou to the hunt for a trophy fee. This combination is practiced with great success and nearly 100% success rate. This hunting area offers arguably British Columbia's best combination on moose and mountain caribou hunting.

### HIGHLIGHTS

- Classic wilderness hunt
- Big Canadian moose with Yukon genes
- Pristine wilderness, natural landscapes, crystal clear water, fall colors, stunning scenery
- Professional guides with great knowledge of hunting and wilderness experience
- Possibility to combine with other species - especially mountain caribou

## Boat hunt

On a boat hunt you will travel on the lakes and/or rivers while calling for moose; you may also take short hikes up to vantage points and meadows. The success rate and trophy size on these hunts is the same as our horseback hunts but the hunt will be less physically demanding. Generally these hunts are booked as two hunters for one guide making them a great choice for those looking to hunt with a friend or family member. One hunter per guide can also be arranged for those wishing to hunt alone on not share his time. Because of the density of moose in the lake regions this is a perfect place for dedicated archery hunters or the older guys who may just like to have a relaxing break from the busy world.

Don't make the mistake to think that the Lake hunt is only for "the Old man", Adventurous guides and endless area can add up to one of the most epic hunts for the fit hunter as well. Year after year the Lakes provide Huge bulls and High success for our hunters. If Big Moose is your goal and Horses aren't your thing, inquire for more details about Lake/River hunts.

The Cassiar area is truly unbelievable. It easily compete with the Yukon for quality on average and by classification of being Canadian Moose your chances at a record book moose are more likely here then any other region. Don't be trigger happy early on in a hunt.... you don't need to!

## How to get there

The journey will begin with a flight to the town Whitehorse in the Yukon Territory. From here you will need to rent a car and drive 5-6 hours along the border of Yukon and British Columbia and down to the main camp Boya Lake Provincial Park. Alternatively, you can also order a transfer from Whitehorse (can be shared with other hunters). It will be necessary to plan 1-2 days of stay in Whitehorse before and after the hunt, to insure against delays and possibly

bad weather that makes transportation to and from the hunting area impossible.

The stay during the hunt takes place in heated cabins in the area, and alternatively tent camps some of the days.

The hunt is traditionally spot and stalk, which has always been a hallmark of this outfitter. There are no hunting towers or tree-stands in the hunting area, only pure wilderness.

This hunting area can also offer fantastic hunting for especially mountain caribou, but also mountain goat, in a remote area with good and healthy populations, which can also deliver some strong trophies.

Weather-wise, you must expect everything from high sun to snow and frost. An exciting area that for a number of years has fulfilled several hunters' "boy dreams".

## Hunting period

September - October

The hunt in September-October will primarily be after moose, but it is possible to combine with some of the other huntable species in the area. In addition to moose, it will be possible to combine the hunt with mountain caribou, mountain goat, black bear and wolf for an extra trophy fee if the trophy is taken.

During your entire stay and hunt, you will be greeted with incredible hospitality, unique nature experiences and excellent hunting!

## ACCOMMODATION Wilderness accommodation

There are several comfortable, heated cabin camps throughout the hunting concession, all located on fly in lakes in the heart of game habitat.

Camps and locations vary, the terrain and vegetation are different throughout the hunting area. The outfitter have 16 small standard cabins, or wall tents camps with wood stoves and all the basic needs at all horse and boat hunting camps.

Spike camps can be made up of wall tent, pop-up tents or a combination of both. Guides will choose the best option for camp accommodations to get you in the optimal hunting spot, be prepared to embrace the adventure!

The view from camp is nothing short of spectacular and the sight of a sheep or goat feeding up high, a caribou or moose trotting by or a bear eating berries is a common occurrence. Sitting by the fire pit in a lawn chair, watching sheep on the mountain and hearing a ruffed grouse drumming is our idea of winding down after a day of great hunting. It is absolute paradise and you need to experience it firsthand!

## PARTNER Backcountry BC

The area is owned and operated by Dustin Roe, who has been running it since 2017, where he bought the famous Cassiar concession. Dustin has despite his young age, been a professional freelance guide for over 15 years, specializing in extreme mountain hunts including all 4 species of sheep and goat species, but has also guided for moose, caribou, grizzly, brown bear, elk, bison, whitetail and wolf.

Dustin is born and raised in the East Kootenay region of BC. After guiding for the first time in 2002, he knew he only wanted to work in the guiding business and own his own area one day.

**At Backcountry BC, the mission is to provide world class hunting adventures which create unforgettable memories and build friendships that last a lifetime. Through these adventures they hope to connect people with the wilderness & the animals that inhabit it, to challenge their abilities and see them succeed, provide exceptional service and promote trophy hunting in a positive and ethical way.**

The first season in 2017/2018 went beyond all expectations with the help of Dustin's team. 4 nice stone sheep, 16 moose were killed, of which 5 were over 200 B&C points and the smallest was 52 inches. There was also a 100% success rate on mountain goat and caribou hunts.

Now a few years after, the outfitter have streamlined the logistics and learned most of the area. They are always excited about exploring new uncharted country and put a lot of effort into maximizing trophy quality, success and the clients overall experience.

## HUNTING AREA Cassiar

### WHERE YOU'LL TRAVEL TOO

The area is approx. 3300 sq. miles (2,112,000 Acres) of pristine wilderness. It is considered to be one of the best hunting areas in all of Canada. With almost no resident hunting pressure or access to 95% of the hunting concession, you will feel like it's untouched. (Resident hunters do hunt within the territory but only on some of the many lakes, like all outfits in BC it is part of it.)

All this is great from an experience standpoint, but it does make it more costly to operate, as everything has to be flown in via floatplane or long horse pack train. There is no riverboat access to the area either. All boats must be flown in along with all other hunting camp supplies. In all, there are approximately 70 Lakes (lots of which have great fishing) in the area and 1 River, which offer some type of floatplane access. We have many established camps throughout and will be increasing our number of camps in the near future to hunt new, unexplored habitat.

Hunters arrive in Whitehorse, Yukon (if flying) with multiple flights daily from Vancouver, Calgary and even Europe. We ask that

hunters allow one night in Whitehorse in case of delayed luggage prior to hiring/renting a car and travelling 5 1/2hrs south to our main camp near Boya Lake provincial park. Here you will be met by our team and prepped for departure into our concession via float plane or truck. Modest accommodation and great food will be provided at our base camp throughout your time with us.

The area is mostly known for its amazing Canadian Moose (both quality and numbers) and also arguably BC's greatest Mountain Caribou. We also have some awesome Stone Sheep rams, True Mountain Grizzly, a healthy Goat population, elusive Wolves and Wolverines and the occasional Black Bear.

The elevations of the lakes and rivers range from 2,000 – 5000 feet. Most of the mountains in the area are quite rough and steep with the highest peaks stretching between 7,000 & 9,000 ft.

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
