Overview

High success rate and capital trophies. These are top state forest hunting areas. In these areas, it is not unusual with fallow stags over 4 kg in trophy weight. To make a long story short, this is the place if you're aiming for capital trophies.

Hunting area

The district is the biggest state forest area in Hungary with a total of 104,000 hectares divided into 8 districts. They are located in the southwestern corner of Hungary in the Somogy County, which is described as one of Hungary's most game rich regions. There are 8 separate hunting districts in the area - varying in size from 9.300 to 48.200 ha, where all of the major European game species are native – including red deer, fallow deer, mouflon, wild boar and roe deer.

The largest hunting area is called Lábod and covers an impressive 48,200 hectares and along with Szantód it is home to one of Hungary's largest free-living populations of fallow deer. Here you can experience an intense fallow deer hunt in October, where the forest is full of grunting fallow deer all day long. At the same time, the quality of the game population is top notch and the extremely professional and strict management ensures excellent genetics and trophy quality.

many hunters, and the top state forest areas know they have the quality matching the prices. On the other hand, Hungary operates with a unique system which ensures that the hunter only has to pay for his trophy if it falls within +/- 15% tolerance of the pre-agreed trophy size.

It is simply the hunting guides responsibility to correctly assess the trophy within this margin. If the hunting guide makes a mistake anyway, it is the hunter's right to leave the trophy on the territory without charge, or choose and pay what it costs if the trophy e.g. is larger than calculated - a good security against budget overruns.

Accommodation

There are 11 first-class hunting lodges covering the 104.000 ha, and each will make the time spent here unforgettable. The lodges are located in beautiful surroundings and provides a very high level of service with own chefs and professional staff.

HUNTING AREA Sefag/Labod/Szantód

The state forest district consists of a total of 8 hunting areas and is located in the southwestern corner of Hungary. Altogether, the area is one of Hungary's largest at a total of 104,000 hectares, which are located in Somogy County, which is described as one of Hungary's game richest regions at all.

Some of the largest hunting areas are called Lábod and Szantód. Here you can experience an intense fallow deer hunt in October, where the forest is full of grunting fallow deer all day long. At the same time, the quality of the game population is top notch and the extremely professional and strict management ensures excellent genetics and trophy quality.

All the areas are home to excellent populations of fallow deer and an appropriate number of deer as well as doe and calves are killed annually, which are predetermined in relation to a set shooting plan. Due to the enormous size of the area, it is no problem to organize individual hunts for larger groups of up to 8-10 hunters. The associated hunting guides have extensive experience in deer hunting and can estimate the trophy size very accurately.

Trophy Hunting

Your Hungarian hunting guide, will be able to judge the size of the game with a high degree of accuracy, and will help to get you the best possible chance of a shot. Following Hungarian hunting regulations, as a visiting hunter, you must accept a margin of error of +/- 15% of the estimate trophy size for game shot. If the error is greater than 15% you can leave the trophy in Hungary. This helps to give a higher degree of security when estimating your hunting budget.

WILD BOARS

Keiler (Tusk Length)

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
