Spot-and-Stalk Hunt

HIGHLIGHTS & DESCRIPTION

Reindeer Hunting in Nuuk

Overview

We can now offer an exciting reindeer hunt in a scenic terrain near Greenland's capital, Nuuk. The pursuit of an old, strong reindeer in incredibly beautiful nature is a dream for many hunters.

Timing and Climate:

Summer reindeer hunting takes place from August 1st to October 31st. At the beginning of the season, the reindeer are high up, and hunters should expect to work extra hard to get within shooting range. As the season progresses, the reindeer descend lower, with fewer mosquitoes and flies, allowing them to move closer to the coasts.

Temperatures can range from +10°C at the start of the season to around -10°C towards the end. Like elsewhere, the weather can be variable with rain, possibly sleet and snow, but there is also often clear sunshine. In the early hunting season, the bucks still have velvet on their antlers, but by mid-September, the trophies are clean and have acquired a fine color. In October, trophy stags may not be taken.

Accommodation:

Upon arrival in Nuuk, guests are welcomed at the airport and transferred to a hotel or guesthouse for overnight stay. The next day, they are picked up at the hotel and driven to the boat, which transports hunters to the hunting cabins in the terrain. Accommodations are provided in comfortable cabins with nice bedrooms, a communal lodge, and bathroom facilities.

HIGHLIGHTS

- Absolutely fantastic outdoors adventure
- Exciting hunting in undisturbed districts
- Great possibility of good trophies
- Can combine the hunt with rough shooting and fishing

The concept is that the hunting cabins serve as the base camp, where hunters and staff relax when not on the hunt, while the boat ensures that hunters are transported to new hunting grounds every day. The routine involves waking up, having breakfast, preparing a packed lunch, going on the hunt, returning to the base camp, having dinner, enjoying the evening, and repeating the process the next day.

Travel:

The journey to Greenland takes place with a direct flight from Copenhagen to Nuuk. The flight time is approximately 4 hours and 40 minutes, and due to the 3-hour time difference, you will land about 1 hour and 45 minutes later than when you left Denmark. Upon arrival in Greenland, the journey may continue with a domestic flight to other destinations such as Kangerlussuaq or Ilulissat.

Hunting:

Hunting in Greenland is a unique experience, vastly different from hunting in Denmark and Central Europe, especially distinct from trophy hunting in Africa and other major destinations. It involves wild and largely untouched nature, where the wind, weather, and animals dictate, and we are the guests. In the hunting areas, there is virtually no infrastructure, placing significant demands on safety equipment and signaling devices.

The terrain is rugged, requiring the ability to hike between 10 and 20 km per day at altitudes of up to 1000 meters. Additionally, hunters should be prepared to carry their reindeer down from the mountains again. A large bull can weigh between 75 and 100 kg. Proper hiking boots, suitable hunting attire for various weather conditions, including snow, rain, sleet, and sun, are essential. The weather can be highly variable, necessitating the right clothing to avoid being caught unprepared.

The terrain is very open, requiring hunters to be prepared

to shoot at longer distances. Therefore, it is advisable to train at distances of up to 200-250 m, if possible. The minimum allowed caliber for trophy hunting is .243 WIN. While there is no requirement for soft-nosed ammunition, it is recommended.

Travel dates in 2025:

8th–12th September 2025 (FULLY BOOKED)
15th–19th September 2025 (FULLY BOOKED)
22nd–26th September 2025 (FULLY BOOKED)

The slots will be filled with 4 hunters per group. Individuals or small groups are welcome to sign up.

ACCOMMODATION Comfortable hunting cabins

Upon arrival in Nuuk, you will be greeted at the airport and taken to a hotel or guesthouse for an overnight stay. The next day, you will be picked up at the hotel and driven to the boat, which will transport hunters to the hunting cabins in the wilderness. There, you will be accommodated and spend the rest of the day hunting.

The concept is that the hunting cabins serve as the basecamp where hunters and staff relax when not on a hunt, while the boat ensures that hunters are transported to new hunting grounds every day. The cabins are very comfortable with nice bedrooms, a common living cabin, and bathroom facilities. The meals consist, as much as possible, of local ingredients or freeze-dried provisions.

HUNTING AREA

Hunting area near Nuuk

The terrain is highly rugged, and participants should be prepared to hike between 10 and 20 km per day, reaching elevations of up to 1000 meters. This is wild and virtually untouched nature, where weather, wind, and animals dictate the experience, and we are the guests. In the areas we hunt, there is almost no infrastructure, placing significant demands on safety equipment and signaling devices. The terrain is very uneven and occasionally quite impassable.

Additionally, participants should be prepared to carry their reindeer down from the mountains. A large bull can weigh between 75 to 100 kg. It is crucial to have well-worn, sturdy hiking boots and sensible hunting clothing that can withstand snow, rain, and sleet while also handling sun and heat. The weather can be highly variable, so it's essential to be equipped with the right attire.

The terrain is very open, so shooting at slightly longer distances should be expected. Therefore, it would be a good idea to practice shooting at distances of up to 200-250 meters, if possible. The minimum allowed caliber for trophy hunting is 243

WIN. While there is no requirement for soft-nosed ammunition, it is recommended.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
