HUNTING AREA
Masailand

The beautiful but dry Masailand has been one of the favorite areas of big game hunters for generations. Lake Natron is probably the most beautiful and varied hunting area in Tanzania in terms of scenery.

The area stretches from The Great Rift Valley in the south, bordering the highlands of the Ngorongoro Crater and the terrain from here transitions into the fantastic open savannah landscapes, here dominated by the almost 3,000 m high imposing volcano "O'ldonyo Lengai", the sacred mountain of the Maasai. This still active volcano is located next to "Kiserian", another magnificent volcano.

The savanna has a rich animal life with lots of different antelopes. The landscape slowly descends further down to the shores of Lake Natron. Lake Natron, is a 56 km long and 24 km wide lake and the primary breeding ground for the little flamingo of around 2.5 million individuals.

From here, the concession stretches north along the lake's western shore all the way to the Kenyan border.

This richly varied landscape with spectacular views, beautiful waterfalls, steep-sided Rift Valleys, dense forest, the endless savannah and the pink flamingo of the lake is of course also an area that non-hunting guests can fully enjoy.

In this concession there is a good population of all the special animal species of Masailand, such as Lesser kudu, gerenuk, fringed eared oryx, Grant's -, Robert's - and Thomson gazelle, Chandler's mountain reedbuck, Bohor reedbuck, East African impala, Kirk's dik-dik, Coke's hartebeest, klipspringer and Masai bushbuck. In addition, the area has huge leopards, large buffalo and a really good and varied bird hunt.

Lake Natron is only a few hours' drive from Arusha, and after the safari you can of course also experience the nearby national parks, Serengeti, Ngorongoro, Lake Manyara and Tarangire.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
