ACCOMMODATION Red Stag Hunting Lodge

Accommodation is provided in an older, traditional Argentinian "estancia" in the hunting district. This accommodation includes all modern facilities and offers a very high level of comfort for visiting hunters.

The guest wing has 4 double rooms with attached bathrms. The property also features a large living room and dining room. Additional services such as laundry, massage, WiFi and satellite TV are also offered.

Food and drink

After a long day hunting you will return to the lodge where relaxing evening and some excellent food and drink awaits you. The inviting fireplace in the living room, and its well-stocked bar will help hunters get into a relaxed mood before dinner is served. Some of the favourite dishes prepared by the chef include pigeon breasts stuffed with peppers, pigeon "Milanesa" (the choicest meat, breaded and fried), fried partridge legs and local cheeses and cold meats.

The quality of Argentinian wine is famous around the world, and you may be surprised how much you will enjoy more unusual varieties of grapes, such as the robust Malbec or Tannat.

HUNTING AREA La Pampa

The hunting district is situated in the La Pampa region. The outfitter Martin Telleria has access to a hunting district over 20.000 hectares in size, around an hours drive from the town of Santa Rosa, where you can either fly or drive to from Buenos Aires.

This hunting district offers fantastic hunting for red deer stags during the rut. The district is mainly flat, but the dense vegetation makes the hunt incredibly challenging and very exciting, as you can often manage to stalk very close to the rutting deer. The outfitter maintains strict shooting policy, and any stags without a crown are regarded as cull animals and so shot and removed from the population. Simultaneously, work is being done on "breeding projects" for large red deer in a so-called "high-fence" area.

In addition to the red deer, hunting for a number of other popular game species is also available. These include blackbuck, axis deer, water buffalo, fallow deer, wild boar, puma, multi-horned ram, Pampas ram and wild goat. A number of different bird shoots are also possible. The hunting takes place in open countryside

over large areas of land primarily used for cattle ranching.

Best Hunting Periods

March - September (but it is possible to hunt all year round)

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
