Challenging hunt

Requires moderate level of fitness

Accommodation in a cabin

Combination Hunt

Spot-and-Stalk Hunt

HIGHLIGHTS & DESCRIPTION

Reindeer Hunting in Nuuk

Overview

We offer an exciting reindeer hunt in the scenic terrain of Nuuk Fjord. Hunting an old, strong reindeer bull in this stunning natural setting is a dream for many hunters.

The summer reindeer hunt takes place from August 1st to October 31st. Early in the season, the reindeer are high up in the mountains, and you should expect to work extra hard to get within shooting range. As the season progresses, the reindeer move lower, with fewer mosquitoes and flies, which brings them closer to the coast. Temperatures can range from +10°C at the start of the season to around -10°C at the end. As elsewhere, the weather can be changeable with rain, sleet, and even snow, but often clear sunshine as well. At the beginning of the season, the bulls are still in velvet, but from mid-September onwards the trophies are fully shed and have a rich color. In October, trophy bulls may not be hunted.

Itinerary

Day 1 – Arrival in Nuuk

Upon arrival in Nuuk, you will be welcomed by the team. The day is spent checking into the hotel and preparing for the upcoming hunting days. There will also be time to visit local shops and pick up any last necessities before heading to the fjord.

Day 2 – Departure to camp and first hunt

Early in the morning, you sail from Nuuk to the hunting camp – either Camp Itivi or Camp Kangiusaq, depending on season and conditions. The journey is made in a closed

HIGHLIGHTS

- Absolutely fantastic outdoors adventure
- Exciting hunting in undisturbed districts
- Great possibility of good trophies
- Can combine the hunt with rough shooting and fishing

Targa boat and takes approximately 1 hour 40 minutes to 2 hours. Upon arrival, the crew helps unload all equipment and luggage. Once hunters are settled in the camp, the first hunt of the day takes place in the surrounding fjord terrain.

Day 3 – Second hunting day

The entire day is dedicated to hunting. You will move on foot through mountain areas and use a dinghy to scout along the coastline. Our experienced guides adjust pace and routes according to conditions, providing new opportunities and experiences each day.

Day 4 – Third hunting day

Another full day of hunting in the fjord's hinterland. Hunting continues in different areas, selected based on observations and weather conditions. In the evening, the group gathers in camp for a good meal and a cozy evening with views over the fjord.

Day 5 – Final hunt and return to Nuuk

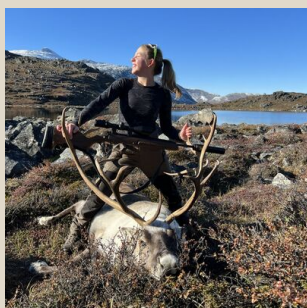

Depending on the group's wishes, the morning can be used for the last hunt before sailing back to Nuuk. The return journey is in the same boat as arrival. Upon reaching the city, check into the hotel and enjoy a relaxing evening in comfort.

Day 6 – Departure

After breakfast, you leave Nuuk. Thank you for joining us – see you again in Greenland.

Travel

Flights to Greenland are direct from Copenhagen to Nuuk, taking approximately 4 hours and 40 minutes. Due to the 3-hour time difference, you arrive about 1 hour and 45 minutes later than your departure time from Denmark. Upon arrival in Greenland, further travel may continue by domestic flight to destinations such as Kangerlussuaq or Ilulissat.

The Hunt

Hunting in Greenland is a very different experience from hunting in Denmark or Central Europe, and especially unlike trophy hunting in Africa or other major destinations. Here, it is the wind, weather, and animals that decide, and we are the guests. In the hunting areas, there is virtually no infrastructure, which requires proper safety equipment and signaling devices.

The terrain is very hilly, and you must be able to hike 10–20 km per day with up to 1000 meters of elevation gain. You should also expect to carry your reindeer down from the mountain. A large bull can weigh 75–100 kg. Good, well-broken-in hiking boots and sensible hunting clothing that can handle snow, rain, sleet, as well as sun and heat, are essential. Weather can change rapidly, so incorrect clothing can quickly become a problem. Hunting is open to everyone in Greenland, meaning you may encounter local hunters. To minimize this, our hunts are scheduled on weekdays whenever possible.

The terrain is very open, so expect to shoot at slightly longer distances than in Denmark. It is advisable to practice at distances of up to 200–250 meters, if possible. The minimum caliber allowed for trophy hunting is 243 WIN. Soft-point ammunition is not required but recommended.

Hunting Dates 2026:

September 7–12, 2026

September 14–19, 2026

Each group is limited to 4 hunters. Single hunters or smaller groups are welcome to register.

ACCOMMODATION

Comfortable hunting cabins

Camp Itivi

Our Nuuk-based hunting camp for 2026 – Camp Itivi – is an exclusive, fully equipped cabin camp located in the heart of Nuuk Fjord. Just a one hour and 40-minute boat ride from the city, the camp is surrounded by breathtaking nature and offers direct access to some of the best and most remote hunting areas in Nuuk Fjord.

Camp Itivi consists of modern cabins with running water and heating – powered entirely by green energy – making it one of the most comfortable and sustainable camps in the Nuuk area.

The experience is designed for hunters seeking a personal, comfortable, and authentic reindeer hunt in Greenland's wild and untouched landscapes – with presence and respect for nature at the center. Camp Itivi is the ideal choice for those who want to combine their passion for hunting with access to spectacular areas.

Camp Kangiusaq

Camp Kangiusaq is a comfortable and modern glamping camp located deep within Nuuk Fjord – the most remote of all camps in the area. The camp can be reached after approximately a two-hour boat ride from Nuuk and is surrounded by high mountains, meltwater lakes, and vast wilderness. Its remote location makes it an ideal base for hunting, with direct access to some of the fjord's most untouched and wildlife-rich areas.

The camp is powered by green energy and equipped with everything needed for a comfortable stay in the wilderness. The spacious tent cabins offer warmth, comfortable beds, and simple comforts, while the communal area serves as a gathering place for meals and planning the day's hunt.

Kangiusaq's location allows for both foot hunting and reconnaissance along the coastline by boat. From here, access to the mountains is quick, and the chances of encountering reindeer are among the best in the entire Nuuk Fjord.

PARTNER Partner in Nuuk

Our partner offers tailor-made trips to Greenland. They have extensive experience in hunting and a deep love for all aspects of nature. As hunting guides, they are very humble and strive to respect traditional hunting methods while providing guests with a truly unique hunting experience in the Greenlandic mountains.

The team is young and agile, yet they have already acquired considerable experience and expertise.

HUNTING AREA

Hunting area near Nuuk

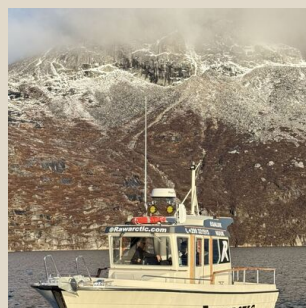

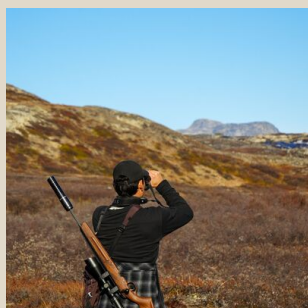

The terrain is very hilly, and one must be able to hike between 10 and 20 km per day, with up to 1000 meters of elevation gain. Here, it is the weather, the wind, and the animals that set the pace, and we are merely guests. In the areas we hunt, there is virtually no infrastructure, which naturally also requires proper safety equipment and signaling devices. The terrain is very uneven and in places quite inaccessible.

You should also expect to be able to carry your reindeer down from the mountain. A large bull can weigh between 75 and 100 kg. It is important to have good, well-broken-in hiking boots, as well as sensible hunting clothing that can withstand snow, rain, and sleet, but also sun and heat. The weather can be very changeable, so you can quickly find yourself caught with the wrong clothing.

The terrain is very open, so you should expect to shoot at slightly longer distances than in Denmark. Therefore, it would be a good idea to practice shooting at distances of up to 200–250 meters, if possible. The minimum allowed caliber for trophy hunting is 243 WIN. There is no requirement for soft-point ammunition, but it is

recommended.

To make access easier, we always have a dinghy available, which is used to travel along the coast and spot animals. The guides often scout the areas in advance to assess where the chances are best – an approach that gives the hunt structure, calm, and the greatest opportunities for success.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
