

# COMBINATION HUNT IN GREENLAND

Hunting for musk ox and reindeer is an exciting combination hunt. Greenland is adventurous for the nature lover and hunter in all of us. The nature experience is overwhelming. Something you will remember for the rest of your life.

Challenging hunt

Requires moderate level of fitness

Accommodation in a cabin

Combination Hunt

Spot-and-Stalk Hunt

## HIGHLIGHTS & DESCRIPTION

# Combination Hunt in Greenland

### Overview

Earlier it was not possible to combine hunting musk ox and reindeer in the same package, but now you can. Our partners can arrange an excellent, well-planned combination hunt, on a fantastic hunting district.

During the autumn we had a group carrying out a combination hunt here, and they enjoyed the experience of a lifetime, it was an unique hunt and they will never forget their time in the camp.

Trophy-wise the musk ox here belong amongst the biggest in the world, being larger, for example than, the Canadian musk ox. The district can also deliver some excellent reindeer trophies.

The habitat for both species is absolutely optimal, with warm summers and relatively dry winters with limited snowfall, makes it possible for them to forage all year round.

The musk oxen in the area around Kangerlussuaq are the descendants of 27 musk ox that were brought here from East Greenland i 1963.

The population has grown to around 4-5.000 individuals, and a number of animals are made available annually for commercial hunters and a more limited number for trophy hunting.

The reindeer are part of the natural fauna of West Greenland. Please note that in the first part of the hunting

### HIGHLIGHTS

- Overwhelming outdoors experience
- Greenland's hunting districts are totally unspoiled
- The terrain is relatively easy to walk, with altitude differences of around 2 -300 m.
- The trophies from the musk ox in this district are amongst the best in the world - this district also delivers many fine reindeer trophies

season the reindeer will often still be in velvet.

Hunters will be picked-up at Kangerlussuaq from where they will be taken to the hunting district by helicopter - an exciting and very beautiful trip!

Hunting is on foot, occasionally it will be possible to use a boat or rubber boat. Otherwise no other form of transport will be used, so you must be prepared to walk long distances to find game. The terrain is relatively easy to walk over, with height differences in the order of 2-300 m.

## ACCOMMODATION Inuit Outfitting - Greenland

The hunting district is in a really beautiful spot in the wilds of Greenland, and the camp lies close to 2 large lakes. It is possible to freely hunt small game (depending on local hunting season\* / shotguns can sometimes be borrowed in the camp) and fish for arctic char.

The camp consists of huts and has space for 4 hunters, poss. 5 if you know each other and are travelling together. There will also be 2 hunting guides and an interpreter in camp. The sanitary arrangements in camp are very primitive.

The hunting district is in a beautiful location by a large lake close to the Inland-ice, around 35km from Kangerlussuaq in West Greenland.

**PARTNER**

## **Partner - Greenland**

We have a wonderful working relationship with Inuit Outfitting run by Mathias and Malene Ingemann. They were the first outfitters to arrange trophy hunting for tourists after the Greenland Home Rule opened up the possibility to do so back in 1996, and since then they have built up a lot of experience in this specialised field.

## HUNTING AREA

# Hunting Area - Summer hunt in Greenland

The hunting district is in a beautiful location by a large lake close to the Inland-ice, around 35km from Kangerlussuaq in West Greenland.

Søndre Strømfjord or as it is called in Greenlandic - Kangerlussuaq - is transected by the Arctic circle, which means in summer it never really gets dark, while in mid-winter there is nearly no light apart from moonlight and the fantastic northern lights. During March, when the hunt takes place, there is more than 12 hours daylight per day, as the day quickly get longer at these latitudes.

Normally you set off from camp in groups to search for the musk oxen. It is agreed in advance with the individual hunters whether the last stage of the hunt will be carried out 1:1, or whether one or more others may follow the hunt from a distance. The hunters wishes will again be taken into consideration before the final stalk is started.

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
