Driven Hunt

## HIGHLIGHTS & DESCRIPTION

# Driven Hunt in Jawor

### Driven Hunting in Poland

The sound of yapping dogs approaches, the beaters enthusiastic cries tell you that a group of boars is approaching the line of guns. You can hear the rustle of dry leaves, and feel your pulse throb in your temple. Here they come!...

Driven hunts gets into your blood - and for many hunters Poland is permanently linked to their annual hunt on their regular district, where they are coming year after year. That the number of regular customers is as high as it is, is simply due to the quality of these hunts on our many State-owned districts.

We have access to a wide range of the very best State Forest Districts in western Poland, of which the vast majority offer top quality driven hunting. These State Forest Districts all have well trained, experienced and very responsible hunting personnel, who all have a job connected to the district.

The hunt starts with a briefing around dawn, where the head gamekeeper tells about how the hunt will progress, and inform you about the safety procedures during the hunt. Normally our driven hunting packages take place over 3-4 days and include 3 days of hunting. Typically between 12-14 guns are needed to sufficiently cover the drives. Between 8 - 10 drives are carried out every day, from early in the morning to late in the afternoon. The areas driven are selected in advance, taking into account game movements in the district.

For many hunters driven hunts are the ultimate form of rifle

## PARTNER RDLP Wrocław

The Regional Direction of State Forests in Wrocław – the Regionalna Dyrekcja Lasów Państwowych we Wrocławiu, or in everyday speech the RDLP Wrocław – is our longest standing partner in Poland. We have been sending hunters to the districts managed by RDLP Wrocław since 1978, when we used one of the districts. Now we use a total of 11 state owned districts, of which we have long term contracts with 6 of the very best. On the rest (= 22) of their total of 33 districts, the hunting is let out to various Polish hunting associations.

In common for all the state-owned districts under RDLP Wrocław, which in 2015 could celebrate its 70th anniversary, is good, professional and stable game management, with each district having its own speciality. Some of them stand out because of their fantastic stag hunts, others because of their well organized driven hunts - while some districts can simply do it all. More information given under the individual districts and we will of course be happy to provide more detailed information via telephone or email.

When hunting in a state-owned district accommodation is

normally provided in the hunting district itself – and not in a hotel in town. In this way our customers can enjoy a "total experience". The game is usually taken back to your accommodation so your hunting companions can join the celebrations. In some districts you can lie in bed at night and listen to the red deer stags roar during the September rut.

A hunt on one of the districts under RDLP Wrocław is clearly a good choice!

## HUNTING AREA Jawor

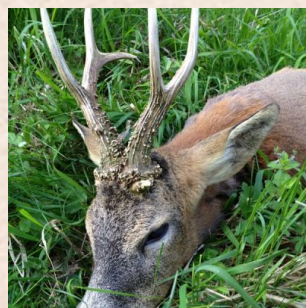

Our state hunting district, Jawor, covers a total area of 10,229 hectares. The landscape is diverse, with 5,994 hectares of forest, while the remaining 4,235 hectares consist of agricultural land and lush meadows. The forest is composed of 55% oak and 30% coniferous trees, along with birch, beech, alder, and aspen. The terrain is partly flat and partly hilly, reaching elevations of up to 600 meters above sea level. Jawor has 121 high seats, as well as 29 feeding places. Up to four hunters can participate in individual hunts at a time, while the exciting driven hunts are conducted for groups of 10 to 14 hunters.

The district is home to roe deer, red deer, wild boar, and mouflon, as well as a small population of fallow deer. Around 70 roe bucks are shot each year. Most trophies weigh less than 350 grams net, but a significant number exceeds 350 grams, with some even surpassing 400 grams. The annual red deer quota is approximately 50 stags—most with a trophy weight of 5 to 7 kg, though stags reaching up to 8 kg are recorded almost every year. The district maintains a healthy population of wild boar, which are hunted both individually throughout the season and during the four driven hunts held in autumn and winter.

Mouflon are also present in Jawor, but their numbers are under pressure due to wolves in the area. As a result, only four rams are available for hunting per season, and no ewes or lambs are taken. The trophy size of the harvested rams ranges from 60 to 95 cm in horn length, with good chances of strong rams exceeding 80 cm.

Accommodation is provided in a beautiful hunting lodge located directly within the district. Guests are treated to delicious meals. The lodge has rooms on both the ground and first floors, offering five double rooms and four single rooms, all with private bathrooms. A cozy lounge with a fireplace provides a comfortable gathering space. In the basement, guests will find a billiard room, a large drying area for wet clothing and boots, and a personal gun safe for each visitor. The lodge has Wi-Fi, though mobile coverage is limited.

The head of hunting operations is Tomek, who has worked in the district for more than 30 years and manages all aspects of the hunt with great professionalism.

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
