Driven Hunt

HIGHLIGHTS & DESCRIPTION

Driven Hunt in Kliniska

Driven Hunting in Poland

The sound of yapping dogs approaches, the beaters enthusiastic cries tell you that a group of boars is approaching the line of guns. You can hear the rustle of dry leaves, and feel your pulse throb in your temple. Here they come!...

Driven hunts gets into your blood - and for many hunters Poland is permanently linked to their annual hunt on their regular district, where they are coming year after year. That the number of regular customers is as high as it is, is simply due to the quality of these hunts on our many State-owned districts.

We have access to a wide range of the very best State Forest Districts in western Poland, of which the vast majority offer top quality driven hunting. These State Forest Districts all have well trained, experienced and very responsible hunting personnel, who all have a job connected to the district.

The hunt starts with a briefing around dawn, where the head gamekeeper tells about how the hunt will progress, and inform you about the safety procedures during the hunt. Normally our driven hunting packages take place over 3-4 days and include 3 days of hunting. Typically between 12-14 guns are needed to sufficiently cover the drives. Between 8 - 10 drives are carried out every day, from early in the morning to late in the afternoon. The areas driven are selected in advance, taking into account game movements in the district.

For many hunters driven hunts are the ultimate form of rifle

PARTNER RDLP Szczecin

Our partnership with the Regional Direction of State Forests in Szczecin – the Regionalna Dyrekcja Lasów Państwowych we Szczecinie, or in everyday language the RDLP Szczecin – dates back to 1982, when we first started to send hunters to one of their districts. More districts were added later, and now in 2016 we have long term contracts with 4 of the best state-owned districts. Of the rest (= 31) of their total of 35 district, the hunting has been let out to various Polish hunting associations, except for 5, which are sold via other agencies.

In common for all the state-owned districts under RDLP Szczecin, which was established in 1978, is good, professional and stabile game mangement, with each district having it's own speciality. Some of them stand out because of their fantastic stag hunts, others because of their well organized driven hunts - while some districts can simply do it all. More information given under the individual districts, and we will of course be happy to provide more detailed information via telephone or email.

When hunting in a state-owned district accommodation is normally provided in the hunting district itself – and not in a hotel

in town. In this way our customers can enjoy a "total experience". The game is usually taken back to your accommodation so your hunting companions can join the celebrations. In some districts you can lie in bed at night and listen to the red deer stags roar during the September rut.

A hunt on one of the districts under RDLP Szczecin is clearly a good choice!

HUNTING AREA Kliniska

Our state hunting district, Kliniska, covers a total area of 16,589 hectares, of which 12,611 hectares are forest, while the remaining 3,978 hectares consist of agricultural land and meadows. The forest is predominantly coniferous, covering 86% of the area, and the terrain is mostly flat. Kliniska has more than 85 high seats as well as 32 feeding places. Up to six hunters can participate in individual hunts at a time, though the optimal number is four to five. For those who prefer the intense atmosphere of a driven hunt, well-organized drives are arranged for groups of 12 to 14 hunters.

Kliniska is particularly known for its large and well-maintained red deer population, which is the pride of the district. With an annual harvest plan of up to 100 red deer and a quota of 34 stags, the chances of an intense rut hunt with a strong trophy are excellent. Most red deer stags have trophies weighing between 5 and 7 kg, but there are also good opportunities for stags approaching—or even exceeding—8 kg.

Each year, approximately 25 roe bucks are harvested. Most trophies weigh less than 300 grams net, though some bucks

reach between 300 and 400 grams. In addition, Kliniska has a population of wild boar, which are hunted both on individual hunts throughout the season and during driven hunts in autumn and winter.

Accommodation is provided in the district's hunting lodge, located in peaceful surroundings within the forest. The guest area on the first floor includes a room with a fireplace, five double rooms, one triple room, and one single room. Most rooms have a private bathroom. A refrigerator is available for guests, and there is access to a locked garage and a cold storage room. The lodge offers Wi-Fi and mobile coverage.

Kliniska is located 40 km from the Kolbaskowo (Szczecin) border crossing, 30 km from Szczecin, the nearest large city, and 25 km from the airport in Goleniów.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
