HIGHLIGHTS & DESCRIPTION

Fallow Buck Hunt in Zmigrod

Fallow Buck Hunting in Poland

Deep grunts rip through the silence of the richly coloured autumnal forest. The big, mature fallow buck are fighting a fierce battle to win the favours of the hinds. The excitement in the air feels electric ...

The fallow buck hunts usually take place during the rutting season, which normally occurs from mid-October to the start of November. Hunting during the rutting season for the grunting bucks is just as intense and exciting as a red stag hunt, and carried out in the same way, a blend of stalking and lying in wait.

Even though the fallow bucks are quite a bit smaller than red stag, you will not notice the difference! The deep growls and the dramatic fights between the territorial fallow bucks characterise the vivid scenes of the rut.

In Poland fallow buck hunts take place exclusively in the open countryside - hunting in fenced enclosures is prohibited by Polish hunting legislation. Because of strict, long term game management policies, fallow deer are becoming more and more widespread, and in many places the populations are dense. This helps to make the experience of stalking them on their rutting grounds a really intense experience!

We can offer a wide range of the very best State Forest Districts in western Poland, all of which can deliver top quality fallow buck hunts. These State Forest Districts all have well trained, experienced and very responsible hunting guides, who each have their own areas in the districts, which they know like the back of their own hands.

The hunt usually takes the form of stalking or lying in wait on one of the towers that have been optimally placed in each district, with regard to the deer's behavioural patterns during the rut. You will go out hunting twice a day, once in the early morning starting before dawn, and again in the late afternoon/evening during the hours around sunset.

It will always be possible to combine your hunt for fallow buck with hunting for hinds and wild boar, once you have shot your buck.

We can offer both fixed price and price-list hunts.

PARTNER RDLP Wrocław

The Regional Direction of State Forests in Wrocław – the Regionalna Dyrekcja Lasów Państwowych we Wrocławiu, or in everyday speech the RDLP Wrocław – is our longest standing partner in Poland. We have been sending hunters to the districts managed by RDLP Wrocław since 1978, when we used one of the districts. Now we use a total of 11 state owned districts, of which we have long term contracts with 6 of the very best. On the rest (= 22) of their total of 33 districts, the hunting is let out to various Polish hunting associations.

In common for all the state-owned districts under RDLP Wrocław, which in 2015 could celebrate its 70th anniversary, is good, professional and stable game management, with each district having its own speciality. Some of them stand out because of their fantastic stag hunts, others because of their well organized driven hunts - while some districts can simply do it all. More information given under the individual districts and we will of course be happy to provide more detailed information via telephone or email.

When hunting in a state-owned district accommodation is

normally provided in the hunting district itself – and not in a hotel in town. In this way our customers can enjoy a "total experience". The game is usually taken back to your accommodation so your hunting companions can join the celebrations. In some districts you can lie in bed at night and listen to the red deer stags roar during the September rut.

A hunt on one of the districts under RDLP Wrocław is clearly a good choice!

HUNTING AREA Zmigrod

With a partnership that has been ongoing since 1978, Zmigrod is not only our oldest but also one of the most renowned hunting areas in Poland. The district spans 27,284 hectares, of which 11,202 hectares are forest, while the remaining 16,082 hectares include agricultural land, meadows, lakes, and wetland areas. The forests in Zmigrod consist of 64% coniferous forest, 14% oak forest, and 14% alder trees. The area is mostly flat. Zmigrod has 167 high seats, as well as 40 feeding places. Up to 6 hunters can hunt at a time on individual hunts, while driven hunts are organized for groups of 10-14 hunters.

The district is home to an excellent wildlife population—here you will find roe deer, red deer, fallow deer, wild boar, and a variety of ducks and geese. Every year, around 95 bucks are harvested, with a very good trophy quality and excellent opportunities for bucks from 350 grams and upwards. The annual red deer quota is 65 stags, most of them with a trophy weight of 5-7 kg, but strong red deer stags over 8 kg are also shot. Approximately 28 fallow stags are harvested each hunting season, and these are nice Polish fallow stags ranging from 2.20 to 3.50 kg. There are also wild boars in Zmigrod. Due to the swine fever, the population had

been significantly reduced, but it is now on the rise again. We offer 3 driven hunts, which typically produce very good results with a good mix of all types of game, and the district expects hunters to take shots at the game that presents itself.

Accommodation is provided in the district's hunting lodge, from where, during the rutting season in September, hunters can hear the roars of the stags right outside the house. The guest area on the first floor includes 1 single room, 4 double rooms, 3 triple rooms, and 1 quadruple room. A refrigerator is available for the guests' use. The hunting manager, Franciszek Matysiak, speaks a little German. He and his hunting guides are very professional and highly regarded among our clients. Wi-Fi and mobile coverage are available.

Zmigrod is located 200-260 km from the Forst/Olszyna border crossing—depending on the route taken—which corresponds to about a 3-hour drive. It is 60 km from Wroclaw, the nearest larger city, and 75 km from Wroclaw Airport, the nearest

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
