A combined beach- and hunting holiday for the whole family, by the shores of one of Europe's biggest freshwater lakes in the center of Hungary. The lake shores are ideal for families with children as there is shallow water between 0.5 to 1.5m in depth stretch far out from the shore. It is an ideal resort for a beach holiday, between June to August the air temperature is usually between 25 - 35°C while the water temperatures are as high as 20 - 25°C.

HIGHLIGHTS & DESCRIPTION
Hunt and Beach Holiday in Hungary

Overview

Transport

You can choose to drive there in your own car or we can arrange flights and transfers from the airport. If you choose to drive yourself, you should count on the journey to Lake Balaton taking 16 hours from the Danish/German border.

Dates: 15th April - 1st week in August

Individual hunts in Hungary: When stalking each hunter will be accompanied by a Hungarian hunting guide from the district. There will normally be two stalking sessions every day (early morning and evening) of around 3 - 5 hours in duration. During periods of very warm weather when the bucks are largely inactive, some districts will offer a certain amount of “auto-staking”, to optimize the chance of a successful hunt.

As in all other hunting destinations around the world each district has a planned shooting policy, and it is only with the permission of your hunting guide that you will be able to shoot any given animal.

The district will take care of all the formalities associated with export of your trophy, including veterinarian documentation. However it is not possible to get trophies measured and veterinarian documentation issued at the weekend, so generally we cannot guarantee that all hunters will be able to take their trophy home with them when they return home.

HIGHLIGHTS

- Roebuck districts present all the way around Lake Balaton
- Good populations of game - on some districts there is also the chance of wild boar
- Trophy weight of the bucks is, as a rule, around 200 - 350 grams, with a few bucks of up to 450 grams
- Combined beach and hunting holiday for all the family by Europe’s largest freshwater lake, in central Hungary

HUNTING AREA
Balatonfüred

We can offer hunting on a number of good roebuck districts all the way round Lake Balaton. The best period to hunt roebuck is from April to the start of August, but you should count on the bucks having low activity levels in very warm periods up to the start of the rut at the end of July. As a rule the size of the bucks trophies are usually between 200 - 350g, with the occasional buck of up to 450g. Game populations are good and you should also have a good chance for shooting wild boar, and even though this is not the best time to hunt for keilers, a number of lucky roebuck hunters have return home with a real bonus.

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Kføssteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world’s largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are “regulars” you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by “agents” of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking “cheap” packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer’s individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
