ACCOMMODATION River View

The accommodation here is really worth writing home about. Guests here stay in luxurious huts built in traditional African style. The camp - River View Lodge - lies right next to a dammed up section of the River Njelele, and all huts have views over the water. From the many decks and terraces you can watch the game at close quarters, when they come down to the river to drink. This destination is particularly well suited to families and there are plenty of exciting activities available in the district itself as well as day trips to surrounding attractions. We can give plenty of references for this destination!

The camp also has a swimming pool, giving you the chance to cool off after a long, hot day out in the bush.

Lunch and dinner are normally served in the lapa, which has been built overlooking the river. There is also an indoors dining and sitting room. The cuisine at Limpopo Safaris is a story in itself!

PARTNER **Limpopo Safaris**

88

During its early years Mias and Bella were the managers of Limpopo Safaris, but since the start of 2011 they have been the proud owners, and they guarantee that high trophy quality will still be in the driving seat.

A large percentage of our customers that visit Limpopo Safaris are families or returning customers. This is almost certainly because of the high standard of service found here and the luxurious accommodation, as well as the simple fact they enjoy being here - this is true for hunters and their families.

HUNTING AREA

Limpopo Safaris

The district, located close to Musina in the north east corner of South Africa, close to the border with Zimbabwe, is one of the best known districts in Africa amongst our customers. There are many good reasons for this! Limpopo Travel have had this outstanding district in their portfolio for many years, and many of our customers are regular visitors, some have even visited the place more than five times.

The district is incredibly varied, it borders a long stretch of the famous river Limpopo to the north, there are a number of smaller tributary streams, in some places it is hilly with Mopani forest while elsewhere it is flat savannah. Enormous baobab trees complete the picture, it is truly untamed Africa. The whole landscape is magnificent, and the wildlife here thriving, a fact that is reflected by the formidable quality of the trophies. The range of species available is large, and it is especially the waterbuck, kudu and nyala that can produce world-class trophies in this exclusive hunting district.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
