## HIGHLIGHTS & DESCRIPTION

# Hunt for Dall Sheep, Caribou, Grizzly Bear...

### Overview

Hunting Dall Sheep is a wonderful experience. This wild mountain sheep lives in the absolute wilderness of the mountains of the Brooks Range, and in other mountain districts such as the Alaska Range etc.

The Brooks Range is the most northerly mountain range in Alaska, where we hunt Dall Sheep, grizzly bear, caribou and there is even the chance of wolf.

The district is part of the Arctic National Wildlife Refuge.

This hunt is defined as a rucksack-hunt. That is to say that the hunter must be in good physical shape, and able to carry his own equipment. The hunt starts out from tented camp, and will involve walking up in the mountains, so make sure you are well prepared in advance.

### HIGHLIGHTS

- Some of the world's largest elk and bears
- A hunt in the wilderness!
- Possibility of major trophies

## ACCOMMODATION Brook's Range

You will fly, via Anchorage, to Fairbanks, then further on to Coldfoot, from here you will continue in a chartered plane to the hunting district in the Arctic National Wildlife Range. Here hunters will overnight in small tents during the entire hunt, so it is important to bring along the correct equipment; a good sleeping bag, sleeping mat, large rucksack etc. (you will be given a packing list before departure).

The guides prepare your meals, but hunters should be prepared to help with many of the chores in camp. Hunters can arrange an extra day in Anchorage, at the start or end of the tour, to explore the city. There is plenty to see and hunters can find a visit to one of the big hunting and fishing mega-stores, such as Cabelas or Bass Pro Shop very interesting indeed.

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
