HIGHLIGHTS & DESCRIPTION

Hunt in the Rainforest of Cameroon

Overview

In the rain-forest the goal for most hunters is the beautiful bongo antelope with its fabulous orange and white striped coat. However forest elephants, sitatunga, forest buffalo, giant forest hogs and a wide range of exotic duikers can all be hunted here, species that have recently been drawing a lot of attention from international big game hunters.

RAIN FOREST

In the rain forest Mayo Oldiri has 4 concessions covering an area of 600.000 ha. The concessions, Boumba, Lognia, Dja and Ndama are situated between 3 national parks, Boumba Bek, Lokomo and Dja, fairly close to the borders with the Central African Republic and the Congo. Even though it is, in principle, possible to drive here from the capital city Douala along gravel roads (2 days), the only practical way of reaching the hunting area is by chartering an aircraft. Our partner has a charter to the rain forest twice a month and it will therefore be possible to share the charter with other hunters and thereby save quite some costs.

The hunting methods here are somewhat different to those on the savannah. The most sought after game species in the rainforest is the extremely shy Bongo. After heavy rain showers the Bongo moves out into slightly more open terrain, often crossing a forest track that the local lumber companies have laid down in the area. It is also possible to find fresh tracks at the many different salt licks. Once you find a fresh, promising track, the pygmy trackers begin their amazing work: following the animals track through the

HIGHLIGHTS

- 1.000.000 hectares of wilderness
- Hunting safaris of a very high standard
- The beautiful orange and white striped bongo antelope
- The wealth of game species found here deservedly attracts attention from international big game hunters

dense, dense rainforest. The hunters and dogs follow the pygmies, and it is only when the dogs can see the bongo that they are set loose to corner the animal, until the hunter can come close enough to take his shot.

Forest elephant is hunted in the same way, but without the use of dogs. Other game, such as Sitatunga and Giant Forest Hog are hunted from openings in the rain forest, so-called "jungle savannahs", and finally duikers are hunted after "calling them up".

The hunting season in the rainforest is from mid March until the end of July.

PARTNER
Mayo Oldiri

Our partner here is one of the most established and best known outfitters in the important Central African hunting destination of Cameroon. The company has access to more than 1,000,000 hectares of wilderness spread over 9 different concessions. Here we can offer both of the two totally different types of hunt that this country is famous for amongst hunters: Hunting in tropical rain-forests and on the sub-tropical savannah. In the rain-forest the goal for most hunters is the beautiful bongo antelope with its fabulous orange and white striped coat. However forest elephants, sitatunga, forest buffalo, giant forest hogs and a wide range of exotic duikers can all be hunted here, species that have recently been drawing a lot of attention from international big game hunters.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world’s largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are “regulars” you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by “agents” of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking “cheap” packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer’s individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
