## HIGHLIGHTS & DESCRIPTION

# Red Stag Hunt in Dabrowa

### Red Stag Hunting in Poland

Throughout history, great deal of prestige is awarded to hunters who shoot a mature stag! The red stag is the undisputed King of Europe's game animals - the trophy which all European hunters are most keen to hang on their wall. However, it is only when you have experienced the thrill of hunting during the height of the rut, that you really understand why this is.

The red stag is powerful, graceful - even majestic - and easily the most impressive animal in our forests. It is quite natural that all European rifle hunters will want to test their skills against this game - preferably more than once!

We can offer a wide range of the very best State Forest Districts in western Poland, all of which can deliver top quality red deer hunts. These State Forest Districts all have well trained, experienced and very responsible hunting guides, who each have their own areas in the districts, which they know like the back of their own hands.

The hunt usually takes the form of stalking or lying in wait on one of the towers that have been optimally placed in each district, with regard to the deer's behavioural patterns during the rut.

You will go out hunting twice a day, once in the early morning starting before dawn, and again in the late afternoon/evening during the hours around sunset. It will often be possible to combine stag hunting with a roebuck hunt, if the district has any left on its shooting quota, or with hunting for wild boar.

### HIGHLIGHTS

- District 11,344 hectares in size
- Annual shooting quota: 63 head of red deer – including 16 stags
- The average size of stags shot during the rutting time over the last 2 years is between 3-6 kg
- 2 choices of accommodation - one with German speaking hosts - the other with English speaking hosts. Normally it is possible to choose between the two.

## PARTNER RDLP Toruń

We have worked together with the Regional Direction of State Forests in Toruń – the Regionalna Dyrekcja Lasów Państwowych we Toruniu, or in everyday language the RDLP Toruń – for the last 21 years, and before that Wilson Jagtrejser (which later became Diana) worked together with some of the districts. Our partnership includes 8 state forest districts, and we have long term agreements with all 8 districts. Of the rest (= 19) of RDLP Toruń's total of 27 districts, the hunting is let out to various Polish hunting associations. Some of the districts lie in the "Bory Tucholski" – Poland's biggest forest complex.

In common for all the state-owned districts under RDLP Toruń, which was established in 1925 and is one of the oldest regional directions, is good, professional and stable game management, with each district having its own speciality. Some of them stand out because of their fantastic stag hunts, others because of their well organized driven hunts - while some districts can simply do it all. More information given under the individual districts and we will of course be happy to provide more detailed information via telephone or email.

When hunting in a state-owned district accommodation is normally provided in the hunting district itself – and not in a hotel in town. In this way our customers can enjoy a "total experience". The game is usually taken back to your accommodation so your hunting companions can join the celebrations. In some districts you can lie in bed at night and listen to the red deer stags roar during the September rut.

A hunt on one of the districts under RDLP Toruń is clearly a good choice!

## HUNTING AREA Dąbrowa

The hunting district Dąbrowa covers 11,344 hectares, of which 9,857 hectares are forest, while the remaining 1,487 hectares consist of agricultural land, meadows, wetlands, and small streams. At the center of the district is a 19-hectare lake where fishing is possible. The forest is predominantly coniferous (83.6%) but also includes oak (5.8%), birch (4.4%), alder (2.7%), and other deciduous trees (3.5%). The name "Dąbrowa" comes from the Polish word for oak ("dąb"). A large part of this beautiful district is hilly. Dąbrowa has 75 high stands and hunting blinds, as well as 21 feeding areas. Up to six hunters can hunt at the same time, though the optimal number is four to five.

The district has a good population of fallow deer, with an annual harvest of approximately 50 animals. Dąbrowa also has good populations of red deer and wild boar, while the roe deer population is quite limited. Each year, about three roe bucks are taken. Dąbrowa also has a fine red deer population, with an annual quota of around 17 stags—most of them with a trophy weight of 4–6 kg, though some trophies exceed 6 kg each year. More than 20 fallow bucks are harvested annually, and they are typical Polish fallow deer, with some stags reaching or slightly

exceeding a trophy weight of 3 kg. There is a reasonable population of wild boar in Dąbrowa, which are hunted both individually throughout the season and during driven hunts in autumn and winter.

When visiting Dąbrowa, you can choose between two cozy accommodation options, both offering authentic Polish hospitality. The first is with Janusz Boguski, where up to six people can stay. It is not a luxury stay, as guests live privately with the family in their home. However, the atmosphere is warm and welcoming, and the catering is excellent. Janusz Boguski speaks good German. Here, guests also stay privately with the family, who take great care of their visitors, and the catering is top-notch. This location offers two double rooms. The hosts speak English. Both places have Wi-Fi, good mobile coverage, and a refrigerator available for guests.

Dąbrowa is located approximately 320 km from the Kolbaskowo border crossing south of Szczecin, about 18 km

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with then new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of smalland medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised, Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails -and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
