Challenging hunt

Requires moderate level of fitness

Accommodation in a cabin

Accommodation in a tent

Spot-and-Stalk Hunt

## HIGHLIGHTS & DESCRIPTION

# Black bear hunt in British Columbia

## Overview

### Black Bear Hunting in the Monashee Mountains – Adams Lake, British Columbia

Adams Lake is located in southern British Columbia, surrounded by the impressive Monashee Mountains. The area is renowned for its strong game populations, professional wildlife management, and high ethical hunting standards. The outfitter operating here is recognized for excellent service, proven success rates, and a well-organized, streamlined hunting operation.

The territory holds healthy populations of black bear, grizzly bear, cougar, mountain goat, mule deer, whitetail deer, and moose. Both elk and mountain caribou are also present in the area; however, hunting licenses for these species are currently not issued.

### The Hunt

Spring black bear hunting in British Columbia offers more than just the hunt itself – it is a complete wilderness experience in the heart of Canada's rugged outdoors. As winter loosens its grip, the landscape bursts to life with green shoots, blooming flowers, and lush vegetation – and it is precisely in these areas that the bears emerge to feed, making them easier to locate.

Hunting is conducted by a combination of four-wheel-drive vehicles, ATVs, and in some areas, by boat to efficiently cover the vast terrain. Once a huntable bear is spotted, the hunt continues on foot with a carefully executed stalk to get within safe shooting range.

## HIGHLIGHTS

- 178.000 hectare hunting district lying next to Adams Lake
- Spring hunt for bears is a hunt in beautiful surroundings
- High rate of success on black bear hunting
- Exciting hunt in the wilderness with guide, with whom you will track down the game

The terrain offers diverse hunting conditions, including mountainous regions, forested areas, and open meadows where game can often be observed from a distance. In addition to bears, moose, whitetail deer, and mule deer are commonly seen throughout the area, adding to the variety and excitement of the hunt.

The outfitter customizes each hunt to the individual client and ensures that every hunter is accompanied by an experienced guide with in-depth knowledge of the wildlife behavior and terrain.

This destination is ideal for hunters seeking a professionally organized hunt in exclusive surroundings, with an emphasis on authentic outdoor experiences and sustainable wildlife management.

### High Success Rates and Traditional Spot-and-Stalk Bear Hunting

The Adams Lake area is known for its strong game populations and high success rates for both black bear and grizzly bear hunts. Please note, however, that grizzly bear trophies from British Columbia cannot be imported into the EU.

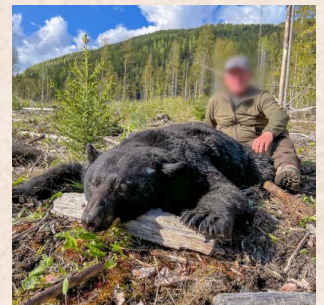

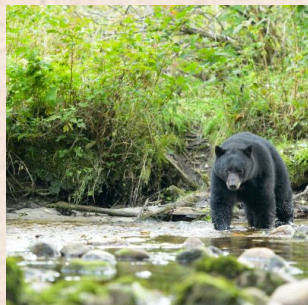

Adams Lake boasts a dense bear population, and hunting here differs significantly from stationary baited hunts. This is true, fair chase spot-and-stalk hunting in the wilderness. Together with your guide, you actively explore the terrain on foot, by boat, or by vehicle, searching for game in its natural habitat.

During a typical six-day hunt, it is not unusual to encounter 20 to 30 different bears, and there is also an excellent chance of harvesting the highly sought-after color phase (brown) black bear. That said, hunting success depends heavily on weather conditions, which is why we recommend planning your hunt for the second half of May, when spring is fully underway and bear activity peaks.

### Fishing and Wilderness Experiences

The camp is equipped with boats and canoes, and those interested can add an optional fishing day, including all necessary equipment. The lake offers excellent fishing for Dolly Varden trout, rainbow trout, salmon, and freshwater pike. Alternatively, guests can explore the surrounding area with great opportunities to spot moose and other big game species.

In certain situations, black bear hunting with dogs is also possible, where the bears are tracked and held at bay, providing a thrilling yet controlled hunting experience.

## ACCOMMODATION Adams Lake

The main camp lies on the western side of the Shuswap Mountains, but there is often used smaller satellite camps during the hunt. These smaller camps can be so-called "wall-tents" or a camping trailer.

Our hunters fly to Vancouver or Calgary and on with a domestic flight to Kelowna, where you will get picked up and transported to the camp.

There are boats and canoes in the camp, so if you want to, you can fish for Dolly Varden, rainbow trout, salmon and pike.

Sometimes you also hunt from the boat, particularly for moose and black bear.

## PARTNER AL Outfitters

The outfitter Kashtin Mair, manages and operates Adams Lake full time. He does everything possible to meet the expectations of visiting hunters, and to make sure they enjoy an unforgettable hunt at Adams Lake.

Kashtin's thorough knowledge of the district and excellent hunting skills always ensure the hunt result in great success.

Hunters fly to Kamloops or Kelowna, British Columbia, where they will meet the outfitter Derek Davies. From there they will be transferred to the hunting district, where a wonderful hunting adventure awaits them.

Here some comments from hunters who previously have hunted with the outfitter:

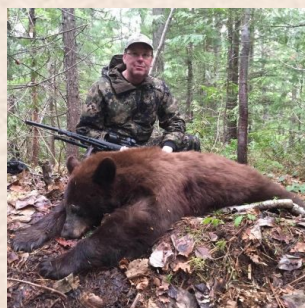

"I hunted black bear with Adams Lake this spring. This was my first time hunting bear and my first trip to Canada. I could not have chosen a better company than Derek and his crew at Adams Lake. The relaxed atmosphere along with the professional way everything regarding the hunting itself was handled made this an

unforgettable trip. I'll be coming back."

- Gauti Jóhannesson (Iceland)

"I've been hunting all over the world, Iceland, Namibië, Russia, Austria, Poland, Germany, United Kingdom. Every year I go to Canada and every time Derek Davies and his team of assistant guides made sure that I had a fantastic hunting experience driven by his outstanding hunting passion and good results."

- Marcus van Kleef (The Netherlands)

## HUNTING AREA Adams Lake

Adams Lake Outfitter's hunting district lies in British Columbia. To be more precise it lies between Shuswap Lake and Adams Lake, north east of the town of Kamloops. The hunting district itself covers around 178.000 ha. And consists of a beautiful, varied landscape with mountains, lakes, large areas of wetlands and meadows. From the town of Kelowna, where our hunters will be met by the outfitter, it is around an hours drive to the hunting district.

There are many forest clearings in the district, in which much fresh, lush vegetation is able to grow. In turn this good food source attracts many different species of animal to the district.

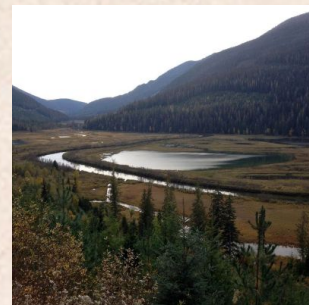

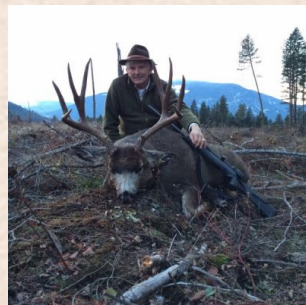

There are good populations of black bear, grizzly (Mountain Silvertip), puma, mountain goat, mule deer and whitetail deer, together with moose. Furthermore wapiti and mountain caribou are also present in this district, but up to now no licences have been issued for these two game species.

The climate is very mild during the spring and autumn, hot during the summer, while during the winter this district sees massive falls

of snow.

The accommodation in which our hunters stay during the hunt depends on exactly where the hunt takes place, and on which species is being hunter. You might stay in "wall tents", cabins or campingtrailers, it is even possible to stay in a hotel under some circumstances.

During the hunt you might use different modes of transport, such as 4wd vehicles, ATV's or snow scooters. Once a promising game animal has been spotted, you will stalk your game on foot until you are close enough to safely take your shot.

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
