## HIGHLIGHTS & DESCRIPTION

# Black Bear Hunt in Alberta / Lone Pine

### Overview

We collaborate with an experienced and professional outfitter offering a classic black bear hunt in Central Alberta, Canada – an area with a dense bear population and very limited hunting pressure.

The hunt takes place in North-Central Alberta, within a non-baiting zone, meaning that all hunting is conducted as spot and stalk. Bears are located and approached on foot – a challenging and authentic hunting style that demands patience and skill. The outfitter has operated sustainable hunts in this area for the past five years, and it holds a strong and healthy bear population, including brown and the rare blonde color phases.

### Hunting Area

The terrain varies between forest, open oil fields, recent logging areas, and higher ridges. Hunters are transported around the area using Argo ATVs, regular ATVs, UTVs, and 4x4 vehicles, depending on terrain conditions. Hunting takes place mainly in open cut blocks and along forest and access roads, where new grass and fresh shoots attract the bears in spring.

### Accommodation

The outfitter now offers lodging in his modern, fully equipped hunting lodge – a significant upgrade from the former wilderness camp. The lodge features three comfortable bedrooms, two bathrooms, and a cozy lounge area where guests can relax after the hunt.

### HIGHLIGHTS

- Exciting "spot and stalk" hunt for black bear
- 1 black bear per hunter included in the price
- 6 day adventure in the wilderness of Albertas
- Experienced and dedicated guides with a thorough knowledge of bear hunting
- Chance to shoot different colour variants of black bear
- Low local hunting pressure on black bears

## HUNTING AREA Swan Hills

The hunting area is located in Central Alberta, approximately 170 km north of Edmonton, and covers several thousand square kilometers. The terrain is diverse, featuring mixed forests, large open oil fields, recently logged areas, and higher elevations – a landscape ideal for spot-and-stalk hunting.

During the hunt, hunters are transported around the area using Argo ATVs, standard ATVs, UTVs, and 4x4 vehicles, depending on the terrain. Hunting mainly takes place in open logging areas, oil fields, and along old forest and access roads, where new grass and fresh shoots attract bears during spring.

Black bears are omnivorous but feed primarily on vegetation such as grass, berries, roots, and shoots. In spring, after months in hibernation, they seek additional protein by feeding on small mammals, insects, and fish.

In addition to black bears, the area offers opportunities to encounter other wildlife species such as moose, various deer species, grizzly bears, wolves, and smaller game. If you've ever dreamed of harvesting a black bear in the true Canadian

wilderness, our partner will be happy to help you make that dream come true.

### Climate:

# About us

## Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
